Subject: Public Nomination: EPA's Workshop on Advancing Systematic Review for Chemical Risk Assessment

Dear Dr. Dekant,

Thank you for submitting your nomination(s) to participate in EPA's upcoming Workshop on Advancing Systematic Review for Chemical Risk Assessment. After careful consideration, the preliminary agenda, which includes a number of speakers nominated by the public, has now been posted (see the link below). At this time all of the speaker slots are filled. We encourage you to attend the workshop in person or via webinar by registering on the workshop website at the link below. There will be time in the agenda for attendees to make comments.

Subject: Public Nomination: EPA's Workshop on Advancing Systematic Review for Chemical Risk Assessment

Dear Mr. Risotto,

Thank you for your suggestions of topics and speakers for EPA's upcoming Workshop on Advancing Systematic Review for Chemical Risk Assessment. After careful consideration of all suggestions, we have posted a preliminary agenda at the link below, which includes a number of speakers nominated by the public. In developing the workshop agenda—mindful of time and scheduling constraints—we struck a balance between presentations informed by chemical-specific experiences and presentations that more broadly describe the current state and future directions of systematic review in the environmental health field. We hope that this balance will help build on the foundation for broadly implementing systematic review within the IRIS Program. We encourage you to attend the workshop in person or via webinar by registering on the website at the link below. There will be time in the agenda for attendees to ask questions and make comments.
